

Set the Stage for Romance with Caribbean Honeymoons

Summary: Romantic Caribbean honeymoons are possible with a Bonaire vacation package from one of the island's luxury hotels. During their stay, couples can enjoy the island's beautiful scenery and participate in thrilling activities.

Body: Caribbean honeymoons are incredibly romantic. Just imagine, right after your wedding, you get whisked off to a tropical island paradise. It's just you and your spouse now. The fresh breeze carrying the slight scent of the clear blue sea, the rhythmic splash of the waves on the shore, fine white sand at your feet and a beautiful Dutch-Caribbean-style villa for you to rest and enjoy each other's company. It is the perfect ending to singlehood and the perfect beginning to a life of no longer being alone.

One of the best destinations to spend your Caribbean honeymoon is Bonaire. Several of its hotels and resorts provide specialized vacation packages for weddings and Caribbean honeymoons. Apart from providing luxurious accommodations and access to some of the island's best sights and tourist haunts, the Bonaire vacation package may include romantic candlelit dinners by the beach and a chance to dive the island's pristine, protected waters. Couples with a penchant for adventure are sure to enjoy the latter privilege.

To make the best of your romantic tropical honeymoon, it may be best to choose a vacation package from one of Bonaire's private luxury beach clubs. Located within an exclusive private end of the island, these resorts are conveniently detached from the constant hustle and bustle of tourists and locals in the small island. You and your spouse can have your privacy, while at the same time being served by an attentive, friendly staff that is dedicated to making Caribbean honeymoons a truly memorable experience.

Resource Box:
